

## From A to Aleph: Three Steps to Writing in Hebrew

Presents a radical new approach to learning the Hebrew script. It recognizes how exotic & daunting it can appear at first to natives of other cultures, & breaks this down by revealing the script's shared roots with the Roman & Greek alphabets, & showing how it can be understood largely in terms of the natural inclinations of the hand when switching to writing from right to left. Written with the empathy of someone who made this transition as a child, the book & its method are the product of over 10 years of successful testing, & demonstrates how the skill of writing in Hebrew can be mastered independently of its grammar & vocabulary. With its informal style & copious illustrations, this book makes the Hebrew script accessible & relevant to everyone.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
