

The Writers Useful Compendium

The Writers Useful Compendium This compendium of phrases and one-liners is a collection of the highly successful 501 Writers series of books including 501 Writers Useful Phrases, 501 More Writers Useful Phrases and 501 Writers One-Liners. Owning the Compendium in paperback or as an EBook is much better value than buying the three books individually and as part of this particular collection, a bonus of 50 mixed phrases and one-liners have been added. Each section shown in the Useful Phrases index contains 100 entries, except for the bonus 50, and the One-Liners complete subject section contains a total of 500 entries.

This most useful, value for money volume of over 185 pages is a must have on the shelf for fiction and non-fiction writers, speakers and speech writers, students at all levels, wordsmiths and journalists and all those just interested in words! Each indexed section, 1 to 21, includes a descriptive heading advising the reader about general content and in the paperback version the index is linked to page numbers. Hopefully, you the reader and equally importantly, you the writer, will gain a little extra something from this new edition compendium. This is not a work of academia, does not follow any particular rules of English Language teaching and each section heading should be regarded as a broad but not definitive description of its content. As already evidenced by increasing annual sales of the individual editions combined here, the compendium can make a great and popular reference, not only at the initial manuscript stage of your writing if you are a writer at any level, but at the tough edit stage where just one small phrase adjustment can make all the difference to flow, pace, excitement and character definition. So, to writers, readers and students of the English language and English literature everywhere Enjoy!

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
