

# Language Learning in New English Contexts: Studies of Acquisition and Development

This edited volume is dedicated to the exploration of English language acquisition and development outside of the largely monolingual environments of North America, the United Kingdom and Australia. Specifically, the studies investigate different facets of English language learning in Singapore, and uses this experience to forge connections with other New English contexts. Using empirical data drawn from a range of language classrooms, the contributors emphasise the place of education within a global framework of English language learning. In so doing they examine economic, social and political factors influencing language education, and present a refreshingly global perspective on English language acquisition. This comprehensive examination of language learning in New English contexts will be of interest to researchers in applied linguistics and world Englishes.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
