

## Writing Dialogue

Whether you're writing an argument, a love scene, a powwow among sixth graders or scientists in a lab, this book demonstrates how to write dialogue that sounds authentic and original. You'll learn ways to find ideas for literary discussions by tuning in to what you hear every day. You'll learn to use gestures instead of speech, to insert silences that are as effective as outbursts, to add shifts in tone, and other strategies for making conversations more compelling. Nuts and bolts are covered, too - formatting, punctuation, dialogue tags - everything you need to get your characters talking.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
