

the colored green tree

This is a historical-fiction allegory about collard greens, a Southern staple, principally associated with African-American culture, history, and diet. The greens themselves speak to each other and fashion and devise several means of addressing and resolving the sagging phenomenon among young greens, which the greens had acquired on a lateral gene transfer from their despondent human consumers! In the end it is a redemptive love story on multiple planes for humans and collard greens. The colored green tree is an eponym and a pun, about an engrafted collard green cultivar, which already exists though it is largely unknown. The book weaves history, science, music, theology and literature into a potpourri of reading pleasure, which ends on a hopeful note for all concerned, greens and human alike!

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
