

Methods of Authors

When I began to gather the material for this volume I was quite doubtful as to whether the public would be interested in a work of this kind or not. As my labor progressed, however, it became evident that not only the body of the people, but authors themselves, were deeply interested in the subject, and would welcome a book treating of it. Not only M. Jules Claretie, the celebrated Parisian literarian, but the late Dr. Meissner and many others assured me of this fact. Nor is this very surprising. Who, after reading a brilliant novel, or some excellent treatise, would not like to know how it was written? So far as I know, this volume is a novelty, and Ben Akiba is outwitted for once. Books about authors have been published by the thousands, but to my knowledge, up to date, none have been issued describing their methods of work. In the preparation of this book I have been greatly aided by the works of Rev. Francis Jacox, an anonymous article in *All the Year Round*, and R. E. Francillons essay on *The Physiology of Authorship*, which appeared first in the *Gentlemans Magazine*. I was also assisted in my labor by numerous newspaper clippings and many letters from writers, whose names appear in this volume, and to all of whom I return my sincere thanks.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
