

Book CPR Workbook

Why isnt my book selling? This is the cry we hear from all too many authors. They put their hearts and souls into writing the book sitting at the computer while their friends and family members relax in front of the television. They hire editors, search out publishing opportunities, accept rejection from critics, and finally, after long months or years of hard work, they get their book into print. And, after a short flurry of sales to close acquaintances, and maybe even after some good reviews by a few bloggers nothing! Sales dry up. The book just sits there. It is in all the right channels. There is a perfectly tailored web site. All the tools are in place, but still NOTHING! No Sales, No Royalties. All that hard work wasted, and those book dreams crushed. If this describes your book, you need to read Book CPR and get your book dreams off life support. Five successful authors show you EXACTLY how to resuscitate your book, using five simple steps. This is not a get-rich-quick scheme. It is not a series of impossible, maybe you will get lucky and end up with an endorsement by Oprah system. It is straightforward advice from authors who know what it is like to DREAM about book success. And then achieve that success. .Book CPR is a WORKBOOK. You wont get lost in theories. Every part of the workbook is filled with practical, step-by-step instructions that will make your book into the royalty-generating and fan-generating machine you always wanted. What is the prescription for getting your book off life support and into the hands of buyers and readers? 1. A Quick Diagnosis 2. Apply Therapy 3. Administer Tablets 4. Socialize the Patient 5. Stay Healthy and Grow Wealthy Get your dreams back from people who KNOW exactly how you feel. Publishers cant help you. Marketers cant help you. ONLY AUTHORS who have gone through the pain, authors who learned how to sell

books by actually selling books, can help you change your book fortunes.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
