

The New Gem of the Adirondacks: A Community Looks to the Future

In 2005 Gem of the Adirondacks told the story of Clifton-Fine, an Adirondack community in which things had gone woefully wrong. Failure of its two industries brought on hard times, resulting in the loss of amenities once taken for granted, new poverty, and a declining population. Of all the losses, worst was the community's hope for the future. That earlier book told only part of the story, however. In recent decades local leaders and activists have led this community into the forefront of the efforts of rural America to survive and prosper. Some things have gotten better, but like its counterparts in other parts of the nation, this community suffers from diminishing wealth and the loss of those who could have become its most productive people. Although Clifton-Fine has yet to achieve the future it seeks, it is already recognized as a leader, and its story resonates far beyond its borders. This is the story of a single community with unique assets and liabilities, but beyond that, it is a chapter in a story playing out in struggling communities all across America. Can leadership, vision, dedication, and a cohesive community be enough to buck the global trends that have seen wealth migrate from many of America's cities and towns to a few centers of innovation and creativity? The story is still unfolding.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
