

Formatting Self-Published Print Books: For Writers Who Want to Self-Publish

For the writer who is tired of being turned away by traditional publishers and literary agents, and decided to take control of their own work. This book is for you. It explains in detail how to format and design your book for a print version, or for Print-on-Demand self-publishing. For the new to self-publishing writer, this is a must read. You can't sign an eBook version of your story, you can't display it on your shelf. It's always nice to have some printed copies of your work available for those readers who like to read books in print, for those who would like a signed copy to display on their book shelf, saying, I know and like this author. It's not as hard as you think to have a nice-looking print book design if you follow my guidelines. It doesn't require specialized software, just Microsoft Word. With my guidelines, your print book will look pleasing and professional. You CAN do it yourself and prepare your book for self-publishing.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
