

## How to Write What Editors like to Read

Many books have been written about writing and in my search for the magic formula, I have read many of them. It became clear that writing is not a magical art but rather a lot of common sense. If you read a book and close it after a few chapters because it is boring or confusing, it's obvious that you should not write the same way; your reader will also think the book is a drag. The book *How to Write what Editors like the Read* exposes these pitfalls and shows how you can avoid them. The book alerts you to the kind of mistakes an Editor will spot in a matter of minutes and politely inform you. Thanks, but no thanks. I have kept the text as short as possible avoiding unnecessary fluff and distraction. Although the chapters are short, there is valuable information imbedded and you might want to read them a few times before applying them. You'll find that your writing becomes more interesting and easy to understand. Readers these days do not want to have to decipher a story, they want instant understanding. The story *Road Trip to Kansas* demonstrates the principles discussed in the chapters. It makes it easier to understand how they are applied. The story takes place during the era when gasoline cost 20 cents a gallon (those good old days?). I am confident that this book will help reach for your goal and make your readers look forward to your next work. Writing is a never-ending evolution; it makes you grow as you look for new horizons. I hope you'll never get discouraged and continue your writing. Quoting from the *Beowulf* poems: A man's immortality is determined by the tales he leaves behind.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped

and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
