

## Writing 7-Minute Inspirational Life Experience Vignettes: Create and Link 1,500-Word True Stories

Put direct experience in a small package and launch it worldwide. Write your life story in short vignettes of 1,500 to 1,800 words. Write eulogies and anecdotes or vignettes of life stories and personal histories for mini-biographies and autobiographies. Then condense or contract the life stories or personal histories into PowerPoint presentations and similar slide shows on disks using lots of photos and one-page of life story. Finally, collect lots of vignettes and flesh-out the vignettes, linking them together into first-person diary-style novels and books, plays, skits, or other larger works. Write memoirs or eulogies for people or ghostwrite biographies and autobiographies for others. The vignette can be read in ten minutes. So fill magazine space with a direct experience vignette. Magazine space needs only 1,500 words. When you link many vignettes together, each forms a book chapter or can be adapted to a play or script. Included are a full-length diary-format first person novel and a three-act play, including a monologue for performances. There's a demand for direct life experiences written or produced as vignettes and presented in small packages. Save those vignettes electronically. Later, they can be placed together as chapters in a book or adapted as a play or script, turned into magazine feature, specialty, or news columns, or offered separately as easy-to-read packages.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
