

## Iambica: An English-Greek and Greek-English Vocabulary for Writers of Iambic Verse (Classic Reprint)

Excerpt from Iambica: An English-Greek and Greek-English Vocabulary for Writers of Iambic Verse To those teachers who believe that composition in a classical language should be practised with the help of a vocabulary acquired by the student himself in his own reading, it may seem an offence against true principles of education to publish a special vocabulary for a particular form of Greek composition. In mitigation it may be pleaded (1) that the amount of tragic poetry usually read before attempting verses is insufficient to give the full and exible vocabulary needed for verse composition; (2) that, though a vocabulary is also acquired by other reading, it is very apt to produce that worst fault in Greek composition - mixture of style and dialect. The following pages are an attempt to provide for students practising the writing of greek Iambics a fuller vocabulary than can be given at the end of a book of exercises, free from the confusing admixture of unsuitable forms, such as are to be found in a general english-greek lexicon. It has been compiled in the main from the actual vocabulary employed by the dramatists in extant tragic dialogue, with sparing addition from other sources. Consequently it is very imperfect as a translation of the English language into Greek. But while it would be too much to expect that it should contain nothing which could offend the individual taste of Aeschylus or Euripides, it is hoped that, at least as regards dialect, there is little in it which could induce them to sink their differences in a joint attack upon the compiler. Part II. Is somewhat of a compromise. In the original design, in accordance with which Part II. And much of Part I. Were completed, the latter contained only the Greek words. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
