

## The ABCs of Success: 26 Keys to a Successful Life

In order to live a successful, fulfilling life, a person must possess knowledge in numerous areas. One is not born with wisdom, but learns through how to navigate life successfully with time and through experience. A successful life begins with a positive attitude. No matter what life throws at you, you must be able to look beyond your circumstances to a bright future. Linda Leonard has put all of the experience gained in life, 30 ? years as an educator in high school, and 45 years of insight gained from rearing four children, into a guide that one may use as a handbook to go through life with eyes wide open. Indeed, anyone wishing to walk down the path of success would gain from the 26 keys set forth in this book the earlier these principles (or keys) are applied, the fewer mistakes one would make down the path of life.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
