

## How to Write a Book in a Day...This One Was

You can write a book in a day. The author of nineteen books (eight are multiple editions) including two treatises, a novel, a prayer book, and even a dictionary, shows you how its done. *How To Write A Book In A Day...was*. It might as well have been entitled *How To Write A Book In No Time*. The author describes his method, following basic research, for writing a one-thousand-page legal treatise on the subject of corporations in five days. He then sets out his method for writing a number of his books in less than three days. He is convinced that you can do it too. His latest book is your road map to authorship and will encourage you and push you to the precipice of a great adventure...becoming an author. Mr. Snyders instructions and his encouraging words include more than the nuts and bolts required to write your own volumes. He outlines, as well, the personal processes which led him to write books on no less than ten divergent topics, each requiring a special but simple technique. All you are required to know is what you know. Most writing, fiction or nonfiction, involves the authors past and present, the authors philosophy, religion and/or social situation, and, most importantly, begins with a dream and ends with an accomplishment. By following the admonition of Thomas Jefferson, Always take hold of things by the smooth handle, you will learn of the remarkable shortcuts leading to your own publication. You will be inspired to live your dreams. You will be informed that the writing of a book is simple prose stretched just beyond everyday term papers and reports and simply is writing more than you have written before. You will learn that book writing requires no special training or even expertise. All that is required is that you be a person in history with a desire to convey information. You will learn that the purpose of writing your book ultimately is to assist others to enjoy

and understand something which you already know, but they don't. Read this book, and then write your own.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
