

Contemporary Chinese (Revised edition) Vol. 4 - Teachers Book (Chinese Edition)

Contemporary Chinese, a complete adult-level textbook series, is tailored to beginners of the Chinese language and is aimed at developing the abilities of listening comprehension, speaking, reading and writing of the language. This series has been widely used at home and abroad since its initial publication. Based on teachers impressions of, and suggestions for, the book over the past decade, the following changes have been made to the revised edition: restructured content and teaching procedures for a greater ease of use for both students and teachers; updated and relevant topics; increased exercises and class activities; two new books: including Testing Materials and Supplementary Reading Materials. The revised edition embodies a new process-oriented, task-based and interactive teaching method.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
