

Photorealistic Human Character Design (German Edition)

Inhaltsangabe: Einleitung: Photorealistic Human Character Design im Bereich von 3D-Produktionen schafft neue Möglichkeiten der Simulation der Wirklichkeit in virtuellen Anwendungen. Die Begeisterung für neue Generationen fotorealer Computerspiele oder die mögliche Umsetzung aufwendiger Actionszenen in Kinofilmen wird erst durch den Einsatz real wirkender Darsteller ermöglicht. Ein Meilenstein in der filmischen Umsetzung ist die Matrix-Trilogie. Viele Szenen wurden in diesem Film sehr wirklichkeitsnah durch 3D-Applikationen generiert. Ohne den Einsatz des Character Designs und dem akribischen Detailbewusstsein für Bewegungsabläufe und der Schaffung einer Illusion, die die Wirklichkeit sehr überzeugend darstellt, wäre der Film in der angestrebten Faszination und Glaubhaftigkeit nicht umsetzbar gewesen. Um ein solches Maß an Qualität zu gewährleisten ist es notwendig, die Natur in ihrer Komplexität virtuell darzustellen. Die Nachempfindung der Eigenschaften der Natur im Schaffungsprozess fotorealer computergenerierter Bilder stellt daher eine außerordentliche Herausforderung dar. Das menschliche Auge nimmt in der realen Welt eine Vielzahl an Informationen auf, die nicht bewusst bis in jedes Detail wahrgenommen werden. Diese Details müssen im 3D-Design umgesetzt werden, um überzeugende, realistische Bilder zu generieren. Im Besonderen wird diese unbewusste Wahrnehmung im täglichen Umgang mit Mitmenschen verdeutlicht. Der Mensch ist perfekt auf die natürlichen Bewegungen und Formen des menschlichen Gesichtes sensibilisiert. Kaum eine Situation wird leichter verstanden als die Emotionen des Gegenübers, die durch Expressionen in den Gesichtszügen definiert sind. Der Mensch ist in der Lage, auf emotionaler Basis, ohne Worte, von Angesicht zu Angesicht zu

kommunizieren. Absichten, Gefühle und Meinungen können allein durch verschiedene Gesichtszüge beschrieben werden. Diese Eigenschaften stellen demnach für die 3D-Reproduktion eines Human Characters hohe Anforderungen an die

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
