

Insiders Italian: Intermediate Conversation Course (Learn Italian with the Michel Thomas Method): Book, Audio and Interactive Practice

Do you want to be able to express yourself in Italian with confidence and fluency? Insiders Italian offers a local perspective on Italian culture, opinions and language use so that you can speak confidently on today's most important and relevant topics. This intermediate Italian conversation course, devised for all intermediate-level learners or those following on from Total or Perfect Italian, will advance your overall fluency, listening comprehension and conversation skills, expand your vocabulary and improve your grammar. Through authentic, lively conversations around engaging topics, and the unique Michel Thomas Method for learning, this course focuses on the colloquial language and conversation strategies used by native Italian speakers so that you can fit in and communicate more naturally. Michel Thomas, the preeminent language teacher, always said that learners start by mastering basic linguist structures (as in his Total and Perfect courses), which provide the bare walls of the house, but that that it was up to us, the learner, to decorate it in our own personal way. Insiders Italian reflects Michel Thomass Phase 2 courses that he and his team offered at his New York language school, allowing increased vocabulary, improved speaking, comprehension and reading and writing skills - the tools with which to decorate their houses. Insiders Italian includes: * Twenty authentic conversations around a comprehensive range of subjects that reflect contemporary Italian culture * Language plus: conversation strategies, pronunciation and intonation to help learners express themselves naturally * Listening and speaking practice to help learners progress to the next level * Cultural insights into the unspoken rules of the language This course includes a 100+ page book, MP3 audio CD-ROM, and interactive review and practice on CD-ROM. Why is the Michel Thomas Method so successful? The Michel Thomas

Method draws on the principles of instructional psychology. Knowledge is structured and organised for the student so that you assimilate the language easily and don't forget it. The method deconstructs the language into building blocks that are introduced sequentially in such a way that the learner creates his/her response and moves on to ever-more-complex sentences. Michel said: I will dissect everything into small parts and reassemble it in such a way that one will understand everything step by step. He was also very clear about his ground rules: no memorisation, no drills, no homework; relax and leave off the anxiety normally associated with language learning.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
