

Intercultural communication conflicts: But they dont know my view

Seminar paper from the year 2010 in the subject English Language and Literature Studies - Culture and Applied Geography, grade: 1, Universite Toulouse II - Le Mirail, language: English, abstract: Our world today is characterized by a growing number of contacts resulting in communication between people with different languages and cultural background. The contact with persons from other cultures is often frustrating and full of misunderstanding. Good intentions and a friendly approach dont seem to be sufficient. Respect for other cultures is one of the key needs in communication. No one should look down on those with different customs, languages or cultures, but try to look through their eyes and to understand, what and how they are seeing the world. Communication between cultures takes place because of contacts within the areas of tourism, education, science, entertainment, but also business, politics or immigration. In all these cross-cultural contacts, communication needs to be constructive without any misunderstandings, just because the group to which a person belongs is different. Currently new types of relationships are presenting communication challenges that few people are ready to meet . In this paper I intend to deal with the concept of communication, especially non-verbal communication and its features in communicating a message when it happens between different cultures.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
