ISBNs - International Standard Book Numbers: A Desktop Resource For Self-Publishing Authors is an authors resource about a subject they hear about all of the time and that publishing platforms require but most authors really dont know anything about ISBNs. I have 10-years of college and five degrees. People expect me to know things that I simply dont know and sometimes dont want to know. I sincerely could have done without the knowledge of colonics and what a Brazilian is when the girls in my office began gabbing about these two subjects. I always thought a Brazilian was a tiny little dude from Rio de Janero no its notgo with me on this one. Im still trying to figure out the lyrics to the 60s song Louie Louie and I have no idea where flies sleep at night (lol). So much for 10-years of college! Heres my point: there are some things we encounter daily that we know little about but use these things daily too. Furthermore, we also use words in our speech and writing that we dont REALLY know what they mean or have a very slight understanding to their meaning. ISBNs are one such subject. When I woke up to this realization, I decided to publish desktop compendiums where readers could access information quickly and learn things that they needed to know. My first compendium was titled Latin Phrases. I was amazed at how often we use Latin phrases in the English language but even more amazed how many of these phrases the users didnt know the meaning of but used them anyway. Phrases like carpe diem (seize the day), non-sequitar (it does not follow), or quid pro quo (this for that). To add some zest to my Latin Phrases book, I even included some funny Latin phrases: Volo anaticulam cumminosam meam! - I want my rubber ducky! Visne saltare? Viam Latam Fungosam scio - Do you want to dance? I know the Funky Broadway. Veni, Vidi, volo in domum redire - I came, I saw, I want to go home.

Vale, lacerte! - See you later, alligator!  
Vah! Denuone Latine loquebar? Me ineptum. Interdum modo elabatur - Oh! Was I speaking Latin again? Silly me. Sometimes it just sort of slips out. Tum podem extulit horridulum - You are talking crap. Since I wrote Latin Phrases I have introduced three other phrase compendium books: Investment Phrases, Legal Phrases, Real Estate Phrases. ISBNs - International Standard Book Numbers: A Desktop Resource For Self-Publishing Authors is the fifth book in this series and teaches a subject that all authors should know about in detail. This book also addresses where authors can get ISBNs. The prices are all over the board and I have provided resources where you can acquire them reasonably.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
