

Learn Italian: A Guide To Learning The Basics of A New Language

Why You Should Learn Italian Italian might not rank among the top 10 most widely spoken languages in the world, partly because it is the official language of only a few sovereign states. Nonetheless, it remains highly popular as a second language, even among native English speakers. If you've always wondered why Italian needs to be learned as a second language, some of the reasons might surprise you. Learning the Italian language is a must not only for those who are planning to visit countries where it is used on a broad scale. Among other reasons, it is also for those who want to:

1. Improve language proficiency, particularly in Latin and English Italian is the only major language spoken today that is closest to Latin. Experts say that learning Italian is the first step to learning the Latin language, and since nearly 60% of the English vocabulary comes from Latin, its one way of improving your proficiency in your native tongue.
2. Advance further professionally Since Italy is recognized as a world leader in fashion, culinary arts, furniture design, shipbuilding, robotics, and aerospace engineering to name a few industries, familiarity with the language can give you an edge when dealing with companies based in Italy, especially if you plan to work for or do business with them.
3. Have a greater appreciation for the arts Many of the greatest cinematic classics in the world were made by Italian filmmakers. Relying on subtitles is okay, but it is more satisfying when you fully understand the dialogue of what you're watching without having to think about their respective translations. Learning the basics of the Italian Language will not just teach you vital expressions and survival phrases that you can learn in one week; it will also help you gain a deeper understanding of the Italian language that you can use if you decide to pursue more advanced studies. This book provides

hundreds of useful expressions, key phrases, and vocabulary that you can use in everyday situations and on special occasions while you're in Italy or in any other country where Italian is one of the most commonly spoken languages. It also offers a comprehensive discussion of Italian grammar to help you gain appreciation of the uniqueness and beauty of the language and help increase your retention of useful Italian phrases and expressions.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
