My own success with Kindle Publishing As I explain at the beginning of this book, I published my first Kindle book in August 2012. By December 2012 (just 5 months later), I was making what many people consider to be a full time income from my books. As part of my learning process, I setup a Facebook page in July 2012 to share my Kindle publishing journey (there is a link to the Facebook page inside this book). On that Facebook page, I shared my journey of discovery. I even shared my month by month income reports. Most of all, I helped those who asked for it (I still do). What I found was a huge and growing audience for this type of work, and ultimately, thats why I wrote this book.
