

# English in Medical Education (Languages for Intercultural Communication and Education)

This book addresses recent developments in medical and language education. In both fields, there have been methodological shifts towards task-based and problem-based learning. In addition, both fields have broadened their focus on clinical expertise and linguistic skills to address issues of cultural competence. English in Medical Education responds to these changes by re-imagining the language classroom in medical settings as an arena for the exploration of values and professional identity. The chapters cover topics such as the nature of cultural competence; how to understand spoken discourse in a range of medical settings; the use of tasks and problems in language education for medics; the development of critical skills and the use of literature and visual media in language education for doctors. It will interest everyone teaching English for Medical Purposes.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, viraal reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
