

Leadership and the Computer

Computers have transformed the way people do business. Leaders who have harnessed the power of the computer to communicate, coach, convince, and compete have an edge over those who have not. In this ground-breaking book, Mary E. Boone, one of the worlds foremost consultants on computers in the workplace, interviews sixteen of North Americas most successful and forward-looking top executives. Here, they reveal how their hands-on relationship with computers is dramatically improving their ability to lead effectively and competitively. Among the leaders are: Ron Compton, CEO, Aetna Life & Casualty Co. Debbi Fields, Chairman, Mrs. Fields Cookies, Inc. Sandy Sigoloff, CEO, LJ Hooker Corporation Thomas Stephens, Chairman, CEO, and President, Manville Corporation William Esrey, President and CEO, United Telecom, and Chairman and CEO, US Sprint

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
