

## Leading Issues in Economic Development

The objective of this book is to present a new kind of course book that will bring order to the diffuse subject of economic development without sacrificing a variety of viewpoints and different perspectives. In this updated fourth edition the majority of the material and readings are new. Even more emphasis has been placed on the interrelatedness of the readings and the pedagogical apparatus has been reworked. Contents include: surplus labour and dualistic development; mobilizing foreign resources; industrialization strategy; project appraisal; development planning and policy making; and others. Courses in development economics; aid agencies and staff; government planners in developing countries.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
