

Stories For French (French Edition)

Stories For French is a collection selected with a pedagogical interest in mind to give new readers in French literature to read in a both interesting and progressive way. Most learners of French never make it to reading books or even stories. They either use or don't use their command of French to some extent in the course of their job and leave it at that. All the same, teachers regularly get requests for books and reading material from their students, and here is a good start. Training people over the years has shown me the need for a carefully chosen selection that would motivate -while encouraging- the learners to take their command of French beyond this, let them keep learning while they are enjoying the read the way I had already done it with songs and music in *Singin To English* and I encourage French teachers to do likewise with French songs. These stories come for students and trainers, teachers and learners alike and more and more are being recorded and can be heard in their audio book version which may be used as audio support and / or practice. The stories featured here offer readability from a fairly early level up; they start with a short easy repetitive pattern to evolve and evolve into more challenging longer stories; the readers will step up their reading without really pulling and stretching.

Welcome to the blog of Joan le Grande. I'm changing the blog to English so forgive me the Dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4. Leave a comment Tag: experience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
