

Gods Dictionary (Learn Gods & goddesses own Maratha Language & Grammar Book 1)

The Author shall teach you the language of Gods and goddesses .The gods language is a magical language.It directly starts working on you inner mind,As soon as you start learning the language, automatically Gods language start our suffering ,the suffering is the only way to clean our dirty mind and soul to get rid of our own past life, un-noticed, excessive greed, related crime that we had committed in past.For that crime the Gods language gives you suffering and punishments, so be brave to accept the suffering and punishments.There by the world shall be liberated from the GREED .Different types of Greeds are our prime enimies, hidden inside us only.Our own greed have made us the slave of the greed.The greed turned us into the demon(danav) or demoness(danavi). The danav and danavi are Gods & goddesses enemy number-One.So our own greed is the main culprit that made us the enemy of our own Gods & goddeses. So by constant effort of learning the Gods own language, we have to liberate ourself from the clutches of the greed.Please detach greed to declare youself fit for the proximity to your own God.So our next promation must be the Gods or goddeses.That GREED made us God/goddess to human. Detachment of GREED will again make us human to God/goddess.It is so simple but very difficult to follow.Therefor first detach youself from Greed,than start learning the God language.After learning of Gods own language, the human being one day surely become Gods and goddesses. Than our own earth shall turn into Heaven.The Gods prime enimies are danavs, means the most greedy people.Whose wants are increasing, day by day,even Gods can not fulfill their never ending demands.So Gods kills them, by activating the Gods own Maratha warrior system. Thus save the the earth from the living debris of the danavs & danavis.So other honest and poor people can able to survive on this planet.The Gods

language simply can not tolerate the greediness. Due to different types of greediness different types of languages are cropped up on this planet. I beg your pardon that, In past, in ancient history of mankind, sometime the Maratha Gods and goddesses intruded into your territory to kill those ancient Danavs & danavi, that time the Maratha Gods and goddesses noticed their particular type of greed. Abused those people a lot for their particular type of excessive greedy behavior, in Gods/goddesses own maratha language. Those all abusive collection of words became your so called present days mother tongue. The the human speaks numerous language due to their excessive types of greediness their ancestors were having. Now it is your duty to get rid of those excessive greed attached to your particular community /locality /nationality/linguality. Than only your gods language learning graph shall improve. You are having false proud of your own mother tongue because the particular greed does not allow to leave you, since to be honest you yourself does not want to leave that greed. In past that pericular type of greed gave you the particular type of language. Ultimately that particular type of language have given you the false proud of that language. That false proud of your greedy-language resist you to learn your own very ancient Gods maratha language. That's the problem. so please. open heartedly accept the above discussion, and forgive me. Please leave the greed and leave your own languages proudness, than only the Gods language learning graph shall improve. I am requesting you for the Gods sake, So come back again to your own original marathi mother tongue, adopt the maratha/marathi language and their culture. but the ancient danav/danvi had distracted your forefathers/foremothers long back in history, compelled them to adopt the particular danavic-language, later that danavic language has now become your own mother tongue as ancistarial ghostly proprty. Please try to understand and digest the facts we are all marathi, so why

not to speak and learn our own

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
