The NLS - language courses put the focus on actual speaking. Learn the language in the same way you acquired your native language: - BY SIMPLY STARTING TO SPEAK! - Thanks to this approach you will lose the inhibition to speak and thus learn how to use the language naturally. Because speaking is entirely natural, and it's simple and enjoyable. With only 10 minutes per day you will be able to learn Italian easily or can refresh your Italian proficiency. Why the NLS method works? If you observe small children and see how easily and playfully simply acquire a new language like Italian, you will recognize that they learn languages in an entirely different way from adults. Fascinated, you may ask yourself what exactly is happening here. Well, through simple imitation of new words and sentences children are able to learn a new language much faster than adults. You will likewise be able to learn Italian just as quick in order to use your new language naturally. We are certain of it! The founder (<http://youtu.be/3WeJ9oH3aY8>) of Natural Learning was convinced for many years that he had absolutely no talent for learning new languages. But today he speaks and works in 5 different languages, all of them fluently. This convincing result caused him to decide to give other people access to the NLS method in order to share his success with them.

Or is nauseating and not really my cup of tea? Read and find out!
