

Finding and Living your Life Purpose

I have lived a very fulfilling and rewarding life that show a progressive and upward path. My autobiography (Climbing Higher) demonstrates that I was constantly competing with myself to reach the next level in every area of my life. I was constantly striving to reach my higher lows in the ups and downs on the Creation/Manifestation Cycle. My constant challenge, as I climbed higher, was to escape the social norms in my home, community, church, school, town, city, county, state, nation, continent and planet. The social norms lacked creativity, exploration, and adventure. The social norms were boring to me. Since 2007, I have been exploring non-traditional ways to find and pursue my Life Purpose. I have focused a lot on Mind, Spirit, Soul, and God (as Law). My life has taken me into unknown and unfamiliar paths. I have transcended barriers and limits and learned more and more as I sailed. My new learnings shaped me and took me further and further away from the social norms that had been established by my traditional background (comfort zone). There were many traditional family members, friends, and church members that silently questioned the life path that I was living. My life path was foreign to them. I moved swiftly from the shotgun house, the cotton field, the factory job, the corporate job, the college/university professorship, the college/university administration, the ancestral connections on another continent, the board memberships in another country, to creating new cultures across continents. All of this led to the establishment of Divine Fulfillment Institute (an Institute without walls). I feel myself connected to all of the continents on earth (Africa, the Americas, Antarctica, Asia, Australia together with the Oceania, and Europe). I feel myself connected to all of the planets in the Universe (Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and

Neptune) and the entire cosmic system. I have come to the conclusion that we live in a Spiritual Universe and everything in it and around it is spiritual. I came to the conclusion that everything in us and around us is spiritual. I came to the conclusion that we are connected to every part of the Universe and we can access every part of it. The purpose of this book is to describe how I found my Life Purpose and how I am living it. It can help others find and live their Life Purposes. Life Purpose is a mental image of the divine plan for your life that will address a specific need in the Universe. It is a clear picture of your souls destiny. It is a special gift that you receive from the Divine Infinite God to address a specific need in the community, the school, the city, the county, the state, the nation, the continent, the planet, or the Universe.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
