

## LeBron James In His Own Words: an unofficial quotebook

LeBron James is the world's most talked-about active basketball player, arousing both adoration and intense criticism. Sports fans and journalists see James as either the most exciting basketball player of this generation or as a selfish underachiever. Sometimes, perhaps both. This book, however, sets aside what everyone else has to say about James and instead simply lets James speak for himself. It contains over 200 quotes from LeBron James on over 100 subjects, taken from press conferences; magazine, newspaper, website, and television interviews; public appearances; and even his Twitter posts. The quotes are culled from the past 10 years, and include media coverage of James when he was still in high school. LeBron James In His Own Words: an unofficial quotebook gives a good picture of how James sees the world, what matters to him, and how he pursues his goals. There are plenty of motivational quotes from James which can inspire readers in the pursuit of their own goals. Subjects include: Always Improving, Approach to the Game, Barack Obama, Commitment, Competition, Dan Gilbert, Focus, Leadership, Olympics, and Work Ethic. Alphabetically arranged, this is the only book compilation of his observations.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
