

## 30 Minutes to Legendary Charisma: Supercharge Your Power (Legendary Leadership Book 8)

Powerful communication is greatly enhanced by charisma. It makes you stand out from the crowd and increases your chances for appointment, promotion, or other opportunities. Its also a trait that will attract people to your cause, and increase the number of friends and clients available to help and support you. Charismatic leaders motivate and build commitment in any organization in which they are involved. Whether you are a teacher, preacher, coach, or corporate CEO, charisma amplifies your ability to lead. While there is no doubt that some people develop charisma effortlessly from the day they are born, this invaluable trait can, to a large degree, be acquired. This is because the key ingredient of charisma is perception rather than reality. As somebody once said, beauty is in the eye of the beholder. But how does one acquire charisma, that elusive essence of personal magic that is so evident in such famous personalities as Ronald Reagan, Richard Branson, Tom Cruise, Tony Robbins and Oprah Winfrey to name but a few? In this book you will Learn: The magic and power of enhancing your charisma. Competence and confidence. Developing your personal style. The power of building your personal brand name. Making people want to help you by making them feel empowered. Why a picture is worth a thousand words. Making your history read great! Associating with success. The power of big dreams, commitment and success. The universal power of a smile.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
