

Livewire: Youth Fiction

To ensure accessibility and readability, Hodder & Stoughton have worked with The Basic Skills Agency on Livewire - a series of reading material with a teenage or adult interest level for those with reading ages below 10 or for adult students learning English as a second or foreign language. It offers teenagers and adults appropriate fiction and non-fiction which is graded at reading ages 6-7, 7-8, 8-9, and 9-10. This section, Livewire Youth Fiction forms part of the series and offers stories at the lower reading age of 6-7 only. Designed to have less text on a page, these stories are starters for older students just beginning to read.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
