

## Longmans Latin Course, Vol. 3: Elementary Latin Prose, With Complete Syntax and Passages for Learning by Heart (Classic Reprint)

Excerpt from Longmans Latin Course, Vol. 3: Elementary Latin Prose, With Complete Syntax and Passages for Learning by Heart. The Third Part of this Course is intended to be a stepping-stone to the writing of Continuous Latin Prose. Before commencing it, the student should have had some practice in turning easy sentences into Latin, and should have a fair knowledge of Accidence. The chief points of Latin construction have been carefully explained with examples which, with occasional modification for the sake of brevity, have been taken from the Latin authors generally read. In the detached sentences given for translation, some of which have been selected from those set in the Matriculation Examination of London University, the English mode of expression has been purposely followed rather than the Latin. The beginner may know his Latin constructions, but the difference of idiom between the two languages makes it hard for him, without training, to utilise his knowledge. The literal translations given of the examples, and the references and hints in the foot-notes to the Exercises should obviate any difficulty. No special recapitulatory sentences were thought necessary, as the points previously explained are constantly reproduced in succeeding exercises. The short continuous pieces will also serve that purpose. About the Publisher. Forgotten Books publishes hundreds of thousands of rare and classic books. Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
