

# An Introduction to the Business-Within-a-Business Paradigm: A Vision of How Organizations Should Work

Governance. Inspiration. Alignment. Control. Value. Empowerment. Performance. In just 42 pages, this monograph draws together many of the topical issues of leadership into a compelling vision of how organizations should work. It challenges executives to think in new ways: Organizations as networks of entrepreneurs, rather than hierarchies of power. Governance by designing the right influences into the organizational fabric, rather than by bureaucratic, disempowering policies and controls. Leadership by building organizations in which everyone can succeed, rather than by personally making all the big decisions. The vision it presents can be used to guide day-to-day decisions about organizations and business processes toward a consistent long-term goal; or it can provide the foundation for a breakthrough transformation process. You'll wish your vendors worked this way. You'll wish your government worked this way. You'll wish your staff thought this way. You'll wish your bosses believed in it. An understanding of this vision characterizes -- perhaps even defines -- the new-think leader. It's a quick, stimulating read for executives in corporations, not-for-profit institutions, and government.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
