

Making Meaning: Building Strategies for College Reading (with MyReadingLab Student Access Code Card)

Making Meaning is a developmental reading text that balances teaching phonics and whole language skills for students who read below the 6th grade level. The text is designed to be visually appealing through the use of numerous photographs and other graphics, and provides the tools needed to acquire the reading, writing, thinking, and reasoning skills that will enable students to effectively process, analyze, and learn information on their own. Its recursive structure gives students the opportunity in each chapter to practice and integrate skills learned from previous lessons, and apply those reading strategies to many kinds of texts.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
