

Tzia (Maps of Greek islands)

Organize your trip to Tzia (???) with this road map of the Greek editor Road Editions. The best way to plan your travel, to prepare your itinerary, and to travel independently on this Greek island. These very detailed maps are based on data provided by the Hellenic Military Geographic Service. They are clear and easy to use. Place names are shown in both Roman and Greek script. Among the different touristic information, you'll find symbols to indicate: beaches, places of interest, religious buildings, scenic routes, archaeological sites, lighthouses. Each map contains short texts in English and in Greek that present the history of the region, with a repertory of accommodation and useful information.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
