

## Real Life 101- Winning Secrets You Wont Find in Class

People are born with different gifts. Most of us develop ways to manage those things that dont come completely natural. Have you ever met someone who is brilliant or super talented in one area, but socially awkward, shy, or known to say the worst possible thing at the worst possible time? Have you ever wished that when you got out of high school or college, there was a manual that helped you figure out how to survive socially - make friends, entertain yourself, expand your horizons? This 1998 book contains some dated language. It may make you laugh. It may make you wonder how the term boogie down ever made it into our daily-speak. Nothing has been changed from the original text that did not specifically involve formatting for an electronic version. I was born a social butterfly. I can walk into a room full of strangers and feel totally comfortable. But I will never be able to program a computer or fix an electrical problem. Fortunately, I follow directions really well, so I can install software or hook up a printer if someone tells me how. Some people do not need directions for these types of things. We all have different talents and gifts. If you or someone you know could benefit from a manual on life, real life, youve come to the original Real Life 101. Many people have copied this book. [If you look at other books out there with the same name, they were published five or more years after this book first came out in 1998.] None will entertain and help you as much. If you need a little help managing the social aspect of real life, you wont want to miss Real Life 101: Winning Secrets You Wont Find in Class.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped

and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
