

Narrative and Social Control: Critical Perspectives (SAGE Series in Communication Research)

What is the relationship between narrative, society and the forms of control that function in society? This critical analysis examines the role of narrative in the creation of various social realities. The central theme is that narrative is a pervasive form of human communication integral to the production and shaping of social order. Each chapter provides both a theoretical framework and an examination of narratives in a range of communication contexts - interpersonal, small group, organizational and mass media - illustrating the far-reaching impact of narrative on our lives and social organizations.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
