

Covering Washington: A Guidebook for Reporters

In *Covering Washington*, veteran national security reporter and author Bill Gertz presents a helpful and entertaining handbook for new journalists navigating the nation's capital. Peppering the book with anecdotes from his long career, Gertz dispenses the kind of wisdom you'd pick up if you were lucky enough to work alongside a journalist who's seen it all in Washington and in capitals around the world. *Covering Washington* is a perfect companion for someone launching a career as a reporter.

Welcome to the blog of Joan le Grande. I'm changing the blog to English so forgive me the Dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
