

## No Vision All Drive: Memoirs of an Entrepreneur (The Techstars Series Book 1)

In 1993, David Cohen and David Brown founded their first company, Pinpoint Technologies, which grew from a basement startup to a successful multinational company with \$50 million in annual sales and over 250 employees. Chronicling the story of that company from its beginnings up to 2003, when it was sold to ZOLL, and beyond, No Vision All Drive is the story of that company and the people who worked there. This book is not about business; it is about people.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
