

## On Target: Spanish for Law Enforcement Personnel

Each On Target program consists of a miniature Spanish-English phrasebook that accompanies an audio compact disc. This particular program is focused to help police officers and other law enforcement personnel communicate effectively with Spanish-speaking customers. All On Target programs are handsomely packaged and targeted to meet the needs of professionals in many different fields who must communicate regularly with Latinos having little or no command of English. Each phrasebook presents English and Spanish words and phrases categorized according to the various topics that pertain to the target profession--questions and information that the reader is most likely to ask or provide. The CDs cover word-for-word all of the text presented in the phrasebooks. Thus, they offer guidance in pronunciation and listening comprehension.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
