

A Step-By-Step Guide to Descriptive Writing (The Library of Writing Skills)

This guide to descriptive writing helps students discover their inner voice and then translate their discoveries into an effectively written piece. Students are encouraged to gather and organize their ideas by using a variety of methods and to improve bland writing by using figurative language, adjectives, adverbs, synonyms, and antonyms. Language basics, such as how to improve sentence and paragraph structure; how to make verbs, pronouns, and tenses agree; and how to vary sentence styles are discussed. Finally, students learn how to proofread and edit their work before making a final presentation.

Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
