

Indie Authors in the Publishing Sea-Change (Authors Go Public Book 1)

I feel like I'm looking through a hole in the fence at a new construction site. This is an interesting view into how some authors are thriving in the radically changed publishing industry. A short, intense exposure that makes me wonder if I should go ahead and jump into the fray with my own writing. Craig Dyson, Minneapolis What happened to publishing in 2011? How are writers benefiting from this changed environment? From the independent authors perspective, this was the year of the sea-change. While traditional publishing continues with thin budgets, insufficient marketing and long delays before book releases, indie authors-turned-publishers are reaping the rewards of being innovative with their own content. This ebook explores how the tables have turned, what some authors are discovering on the path of publishing, and how authors may hold the keys to the survival of beloved local booksellers. Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
