

Our Journey of Faith through Encephalitis: A true story of a young familys battle through a deadly illness and the after effects of a debilitating brain disease

Living the American dream, a strong young man in the prime of his life is struck by all odds with encephalitis, a brain crippling illness. Barely making it through alive he awakes from a coma not knowing his wife of eight years, his four-year-old daddys girl, or his bouncing baby boy in diapers. Weighed down and weary, his wife never leaves his side. Her strength amazes everyone around them as she praises God and finds peace in His plan for their lives. Life as they knew it instantly changed from normal to a whirlwind of doctors, therapists, and a boatload of confusion. Emotions of fear, discouragement, and anguish gave way to feelings of being strengthened, uplifted, and renewed. Learn how their faith in God pulled them through this devastating turn of events. Although a scary and difficult journey to travel, Gods path led them to a newfound purpose in life with a renewed spiritual strength.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
