

Paul and Rhetoric (T&T Clark Biblical Studies)

Paul and Rhetoric contains essays that have been presented in a seminar called Paul and Rhetoric in the annual meetings of the Studiorum Novi Testamenti Societas, the leading international forum for New Testament and Christian Origin scholars. Translated into English, these essays, by leaders in the field and in the topic, engage and represent modern scholarship on Paul and rhetorical studies. The foundational essays are listed under the heading State of the Discussion, attempting to take the major rhetorical categories of the time contemporary with Paul (types of rhetoric, invention and arrangement, and figures and tropes) and, first, lays out where the discussion is now. They then note the problems and highlights where continued discussion and deliberation would be helpful. The Broad Questions section asks what can be learned about reading Pauls letters to congregations in light of ancient epistolography, how theology and rhetoric are related (because the two are often treated as if they are alien to one another), and how ancient rhetoric and ancient psychology are associated with one another. All in all a volume that illustrates, examines and assesses where we are now in the study of rhetorical traditions in Pauline scholarship, and in some instances suggests the direction of future studies.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
