

How is Society Possible?: Intersubjectivity and the Fiduciary Attitude as Problems of the Social Group in Mead, Gurwitsch, and Schutz (Phaenomenologica)

How is society possible? In *Die Krisis der europäischen Wissenschaften und die transzendente Phänomenologie*, I Edmund Husserl is found with a pathos sending out pleas for belief (Glauben) in his transcendental philosophy and transcendental ego. The traditional idea of theoretical reflection instituted in ancient Greece as the suspension of all taken for granted worldly interests has, through a partial realization of itself, forsaken itself in the one-sided development of the objective mathematical-natural sciences as they themselves have become so taken for granted, with the method and validity of their results held as so self-evident, that they appear as resting self-sufficiently on their own grounds, while pursuing an increasingly abstract mathematization of nature. The sciences are left without a foundation and their meaning within the world consequently unintelligible, while their objective and valid abstract concepts continually tend to supercede the everyday life-world and render it questionable. In the end, these of belief in the everyday life-world or reflective evolving and exchanging attitudes doubt (science) ultimately leads to a disbelief in both, and a search in one direction for idol leaders and in the other for the cult of experience. This collapse of Western belief systems becomes particularly threatening as it turns into nihilism which is the development of beliefs in societal forms which employ 2 natural and social science for the liquidation of humanity and nature. Society starts becoming impossible.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality.

Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
