

Philips Street Atlas Berkshire (Philips Street Atlases)

This fully revised pocket-sized street atlas of Berkshire gives comprehensive and detailed coverage of the county. The route planner shows all the A and B roads, and can be used when driving to get close to the destination before turning to the relevant large-scale street map. The street maps show every named road, street and lane very clearly, with major roads picked out in colour. The maps are at a standard scale of 2 2/3 inches to 1 mile, and show postcode boundaries. Other information on the maps includes car parks, railway and bus stations, post offices, schools, colleges, hospitals, police and fire stations, places of worship, leisure centres, footpaths and bridleways, camping and caravan sites, golf courses, and many other places of interest. New to this edition are fixed single and multiple speed-camera locations, with corresponding speed limits. The comprehensive index lists street names and postcodes, plus schools, hospitals, railway stations, shopping centres and other such features picked out in red, with other places of interest shown in blue.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
