

Pixie Dust V: A Tale of Combatting Corporate Burnout: Protecting Your Talent

Nominated for the CMI Best New Management Book of the Year, this fifth instalment in the series of Pixie Dust management books follows two years extensive research into the growing issue of corporate burnout. The research, undertaken by Dr. Howard G Awbery, involved interviews with leaders from all areas of the corporate world to discover how corporate burnout manifests itself. The book explains the physiological changes that employers and individuals must look out for and provides a number of tried and tested recovery strategies for coping with burnout. Pixie Dust V is quick to read and easy to understand and will equip you with the essential knowledge to help avoid burnout.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
