

Select Letter of Pliny the Younger: Latin Text, With English Notes (Classic Reprint)

Excerpt from Select Letter of Pliny the Younger: Latin Text, With English Notes We have here made a Selection, amounting to about two-fifths of the whole, from the Epistles of the Younger Pliny. This selection will, we hope, be found useful as a class-book for the upper forms of schools. Pliny, indeed, has been strangely neglected by teachers and students of classical literature. His letters, though somewhat formal, having probably been written with some view to publication, are models in their way. They are in a very elegant style; they are the expression of a highly cultivated mind, and of a singularly refined and affectionate disposition, and their subject-matter is often of the highest interest, especially as showing to us that better side of Roman life under the Empire which indeed it would not be easy to find portrayed elsewhere. Difficulties, sometimes considerable, are to be found in them, but they have the advantage of being free from the recondite allusions and the obscurities, often intentional, with which the letters of Cicero are crowded. The only objection that may fairly be made to them - namely, that their Latinity is not always of the purest type, we have endeavoured to obviate by pointing out such words and phrases as seem to differ from the usage of the Augustan writers. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
