Life is a mystery to be experienced
Living A Determined Life is an opportunity to continuously examine your life in an on-going manner than helps you build and journey on a path that mentally, emotionally and spiritually aligns with your personal lives purpose across seven key elements of life: Your Personal Life Your Professional Life Your Family Life Your Mental and Emotional Life Your Health and Fitness Life Your Spiritual Life Your Interconnected Life The path to Living A Determined Life starts within, and then branches out to encompass all aspects of your life. This is why the Project You Life Journey is an unparalleled expedition of discovery and self understanding. Taking this journey exposes you to the grate potential of your mind, and intimately connects your human and spiritual forms. This is why, for most, the journey is far more important than any final or intermediate destination. The Project You Life Journey is about looking inward and asking two critical and illuminating questions of yourself: What am I doing with the rest of my life? What can I do to ensure the world will be better off after me? So, if someone asked you today what are you doing with your life? how would you respond? Project You: Living A Determined Life will help you answer these two questions.

Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
