

Wordwatch: A plain language guide to grammar, punctuation and writing well

This is a basic guide to writing well. Aspects of grammar and punctuation that commonly cause confusion are demystified in plain English. You'll find clear instructions on the correct use of possessive apostrophes, commas, speech marks, hyphens, and semicolons. Other topics include the subjunctive, split infinitives, and the difference between fewer and less. You can also learn more about active and passive sentences (active sentences will often make your writing clearer and more direct); commonly used foreign words and phrases; and word classes, including nouns, adjectives and verbs. Other common conundrums dealt with here include: that or which? affect or effect? lay or lie? practice or practise? whose or whos? my friends and I or my friends and me? Why does correct punctuation and grammar matter? Well, look at the following: A woman without her man is nothing. With the correct punctuation all becomes clear: A woman: without her, man is nothing. Wordwatch includes an introduction to politically correct writing. This is not comprehensive but offers some sensible, no-nonsense advice for the careful writer. Wordwatch grew out of the authors successful blog: <http://wordwatchtowers.wordpress.com/>

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
